National Energy Conservation Awarded - 2023

Receiving the **National Energy Conservation Award 2023** from
Hon'ble President Smt. **Draupadi Murmu.**

Crompton was awarded the National Energy Conservation Award for 2023 in the category of Most Energy Efficient Appliance for their storage water heater. This award recognizes their ongoing dedication to developing energy-saving products, building on their previous achievements in categories like fans and lights. The National Energy Conservation Awards, established in 1991, celebrate significant contributions to energy conservation. Their commitment to innovation and sustainability motivates them to continue creating a more environmentally friendly future.

Our commitment to innovation and sustainable energy solutions drives us forward and this recognition fuels our passion to further create a greener future!

72	1800
80	2000
88	2200

WASHROOM

Room Area (In Sq. Ft.)	Lumen Required
48	800
54	900
60	1000
66	1100

AISLE

Room Area (In Sq. Ft.)	Lumen Required
48	800
54	900
60	1000
66	1100

LIGHTING PRESCRIPTION

Step 2:

Understand the layers of lighting possible in a room:

Functional Lights

Batten, Panel, LED Bulb

The purpose of this layer is providing an even light across the room

Spot or Focus Light

(COB, Downlighter, Table Lamps, Panel)

Task lighting provides focused light for specific tasks in a room that may already have some functional light.

Mood Lighting

(Smart LED Bulb - Immensa, Dimmable, Tunable Batten, 3-in-1 Panels)

The intensity and color of the light can command the mood of the room, for this we have mood lights.

Crompton

Disclaimer: The above informations is provided only for reference and is provided assuming the most common size of rooms in Indian households with an approximate room height of 10 Feet. To know more about Crompton Lights, scan the QR Code

TRIO LIGHTING RANGE

Crompton redefines home lighting experiences with the launch of its

Trio Range of Lights

Ceiling Light, Batten & Lamp

Crompton Greaves Consumer Electricals Limited, known for its commitment to quality and innovative lighting solutions, introduces the Trio Range of Lights. This premium range consists of a Ceiling Light, a Batten, and a Lamp, each offering three distinct lighting experiences - Cool Day Light, Natural Light, and Warm White. Designed for both decorative and professional needs in various settings, the Trio Range combines functionality with refined style.

In the ever-changing world of interior design, Crompton lights have consistently endured. The Trio Range takes lighting solutions to a new level, providing an immersive experience tailored to contemporary living. Recognizing that homes are more than just spaces, Crompton's transformative lighting solution caters to diverse moods and occasions with three modes: theatre, work, and party. With a click of a button, switch between cool, warm, and natural lights for focused work, a relaxing evening, or a lively party atmosphere.

VERSA EMERGENCY LAMP

Applications:

- Home
- Shops
- Camping
- Outdoor Activities

The lamp delivers uniform illumination with its 360-degree light distribution, ensuring a well-lit environment from every angle.

The tunable feature adjusts light color seamlessly, from comforting 2700K to bright 6500K

Essential during outages or outdoor activities, ensuring reliable illumination in critical moments.

Lamp emits glare-free light, providing a soothing ambience without causing discomfort.
